PROFESSIONAL PROFILE

A Computer Science and Engineering student at AIUB (CGPA 3.58/4.00) who brings something less common to a technical role: genuine experience of selling to and serving real customers. Alongside studying programming, database systems and security, has worked in an electronics business and retail shop, handling product sales, pricing discussions and everyday operations. Has worked in teams to build desktop and graphics applications in Java, C# and C++, and is now researching how deep learning and NLP can detect AI-generated phishing messages across multiple languages. Currently taking an offline Cyber Security and Ethical Hacking course to build practical security skills. Keen to start a career in Cybersecurity, Software Development, Database Management, IT, or Sales and Marketing, where both technical and people skills can be put to use.

SKILLS AND EXPERIENCE

Information Security

- Practise ethical hacking basics and Linux command-line work inside Kali Linux
- Run test machines in VirtualBox so security experiments never affect a real system
- Attending an offline Cyber Security and Ethical Hacking training programme at Creative IT Institute (ongoing)
- Studying how attackers use AI to craft phishing messages as part of final-year thesis work

Business Development & Customer Service

- Handled direct sales of electronics products and explained product features to walk-in customers
- Recommended suitable products by matching customer requirements with their budget
- Took part in price negotiations, product promotion and building customer trust
- Learned how customer needs, market demand and sales strategy shape a business day to day

Programming & Application Development

- Event Management System: C# Windows Forms app with role-based screens for managers and employees, task allocation and progress tracking
- Travel Management System: Java Swing desktop app with tour packages, passenger records, admin controls and a payment module using file handling
- Graphics & Animation Project: C++/OpenGL scenes with moving trains and cars, day-to-night change, lighting, smoke and user input
- Applied OOP design and core data structures and algorithms while writing project code

Database Systems

- Wrote SQL queries and PL/SQL blocks on Oracle Database during Advanced Database Management coursework
- Set up the SQL Server back end that powers login, events and tasks in the event management project

Research & Analytical Skills

- Final-year thesis: "Hybrid Deep Learning-Based Detection of AI-Generated Multilingual Phishing Attacks"
- Building a dataset of phishing and genuine messages in several languages, then cleaning and preprocessing it in Python
- Testing machine learning and deep learning models and applying NLP methods to multilingual text

Communication & Collaboration

- Poster on AI tools and EdTech in Bangladesh earned 3rd Place at the 7th Bangladeshi International Conference on IEOM, AIUB, 2024
- Presented the same work orally to an international conference audience at AIUB, 2024
- Shared tasks and combined individual modules with teammates on every group project

CAREER SUMMARY

Practical Experience	ELECTRONICS BUSINESS & RETAIL SHOP, Dhaka, Sales & Customer Service
Group Project	EVENT MANAGEMENT SYSTEM, C#, .NET, Windows Forms, SQL Server
Group Project	COMPUTER GRAPHICS & ANIMATION PROJECT, C++, OpenGL, GLUT
Group Project	TRAVEL MANAGEMENT SYSTEM, Java, Java Swing, File Handling

EDUCATION AND TRAINING

B.Sc. in Computer Science and Engineering (CGPA 3.58/4.00), American International University-Bangladesh (AIUB), Dhaka, Expected 2027

Higher Secondary Certificate (GPA 5.00/5.00), Dhaka Commerce College, Dhaka, 2021

Secondary School Certificate (GPA 4.61/5.00), Monipur High School and College, Dhaka, 2019

FURTHER COURSES

Cyber Security and Ethical Hacking (Offline), Creative IT Institute, In Progress

ADDITIONAL INFORMATION

Coding: Java, C, C++, C#, JavaScript, Python

Web Stack: HTML, CSS, JavaScript, React.js

Data & Databases: Oracle Database, SQL, PL/SQL, SQL Server

Security Environment: Kali Linux, Linux, VirtualBox

IDEs & Design: Visual Studio, Code::Blocks, Notepad++, Canva

Business Skills: Sales, Digital Marketing, Product Promotion, Customer Relationship Management

Languages: Bangla (Native), English (Professional Working Proficiency)

Awards: 3rd Place, IEOM Poster Competition, 2024; Oral Presenter, IEOM Conference, 2024

INTERESTS

Information security, ethical hacking, databases, software and web development, data analysis, machine learning, NLP, marketing and sales
